

# INSTALLING AN APPLICATION FROM THE WSU NETWORK (MAC)

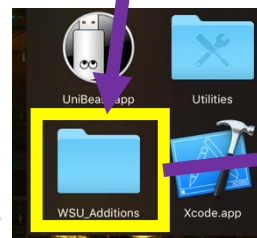

**NOTE: Make sure you are connected to the WSU network before attempting to install campus software!**

1. Navigate to the 'Applications' folder. A shortcut should be located on the right-hand side of the Dock (see photo on the right). Click on this folder.

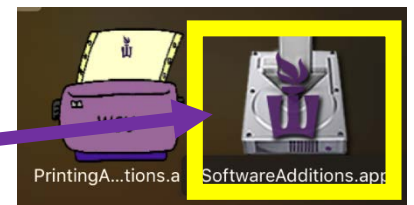

1.

2. Scroll down to find the 'WSU\_Additions' folder. Click on this folder to open it.

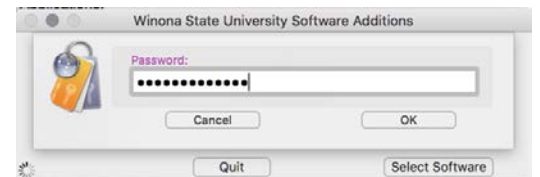

2.

3. Click on 'Software Additions'.

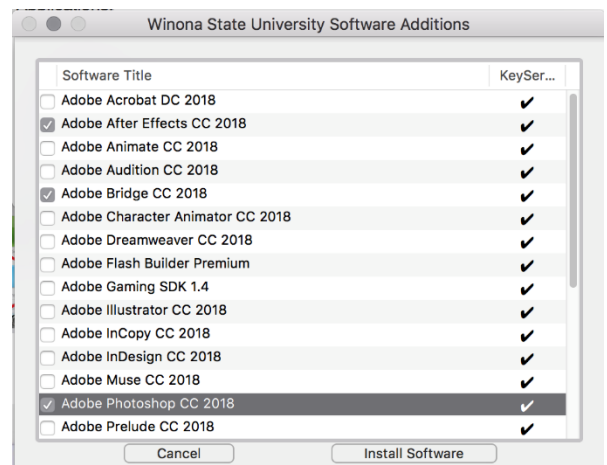

3.

4. Sign in with your StarID password and click 'OK'.

5. Select the software you would like to install and click 'Install Software'.
6. Now just follow the on-screen instructions for each application you selected. The selected software should appear in your 'Applications' folder when the install process has finished.

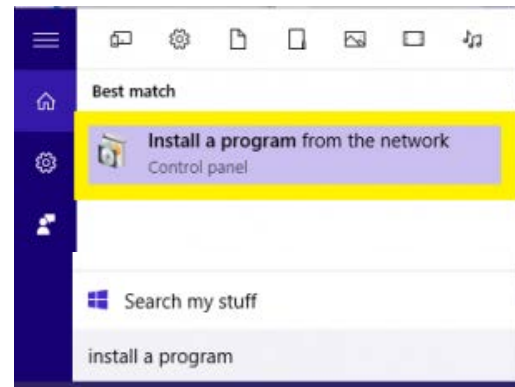

# INSTALLING AN APPLICATION FROM THE WSU NETWORK (PC)

**NOTE: Make sure you are connected to the WSU network before attempting to install campus software!**

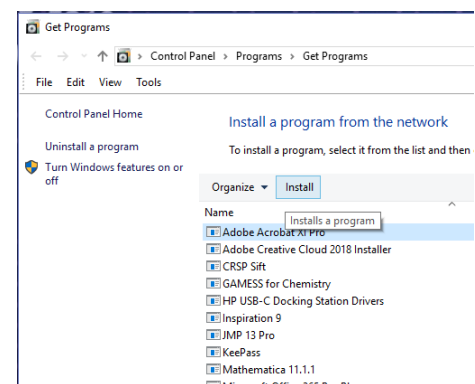

1. Click on the Start icon, , in the lower left corner of the screen.

2. Start typing "Install a program" and click on "Install a program from the network" from the list.

3. The available programs will appear. Choose the program that you want and click on "Install".

**NOTE: If you do not see any programs, reboot your machine and try again.**

4. After you click 'Install', you may see a window like this. Be patient, as your computer is now installing the software. You will be notified when the installation is complete!
