

INSTALLING AN APPLICATION FROM THE WSU NETWORK (PC)

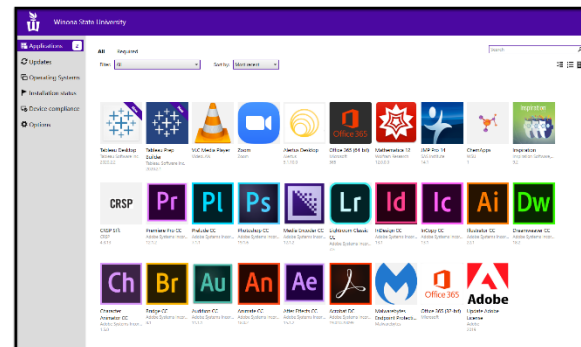

NOTE: Make sure you are connected to the WSU network before attempting to install campus software!

1. Click on the Start icon, , in the lower left corner of the screen.
2. Start typing “Software Center” and click on “Software Center” from the list.

3. The available programs will appear as shown in the image on right. Click on the program icon that you want install.

4. After you click on program icon that you want to install, you will see a window where you have to click on “Install” button.

5. After you click on install, you will see the button to cancel installation incase if you change your mind. While installing the program you can check the estimated time and status of the installation. The status will be changed to “Installed” once the application is installed and ready to use.
